-The flouring mill at Johannisburgh. belonging to Duckworth and Wintker was destroyed by fire last Monday evening. The mill was capable of turning out about 200 barrels of floor per day; it had been lately repaired and improved. Its original cost was \$30,000, and it was what is generally considered a number-one mill.

We have been unable to learn the cause of the fire. The flumes could be seen in the early part of the evening from Marissa. It will probably not be rebuilt.

The following score was made by the glass ball shootists last Monday or Marie sa, Henry Finger and A. C. Elder choos ing sides:
